BRIEF ABSTRACT OF LETTER

Request that plans & estimates relating to the Lay out of roads in Municipalities be approved by the Sanitary Commissioner for Govt

NOTES AND ORDERS

May 4

The Rules for improvement & extension schemes are as shown below —

(1) For large town improvement or extension schemes, proposals should be referred to the Sanitary Commissioner for advice

Municipalities according to the order dated revised & issued. If this permissible for to say at this stage what I think, I would respectfully suggest that the following clause may be added after "necessary scrutiny by the S. S. Officer" before the words "& must receive the previous approval of the Supdg Engr Sanitary Circle" in the revised G.O. The sentence would then run as follows "all plans for town extensions in Minor Municipalities after necessary scrutiny by the S.S.O. shall receive the previous approval of the Supdg Engr, Sanitary Circle or the Govt

Municipalities

in consideration and action when necessary
then is all that could be done under the
circumstances the rules are to be observed
by engineers in all the municipalities in
respect of local enactments. The Govt
have to advise the rules as they would in
and they cannot be enforced by any
order—

It would be inadvisable to
notify the rules until all
steps for the introduction in these municipalities
should receive the previous approval of the
Govt as then the whole matter till
rules are to be notified as to
drainage of the area receives due attention
this does not prevent the municipalities from
enacting the bye laws there. What is
required is the approval of the bye laws & the
introduction of the bye laws. The Sanitary Engineer
should be consulted about the proper sewerage
streets and conservancy issues and he must keep
them in sanitary touch of work. If he does
know this he is not fit to be called a Sanitary
Engineer The Sanitary Engineer to be a

From

A. K. PANI, Esq., D.P.H., etc.,
Offg Sanitary Commissioner with the Government of
H H the Maharaja of Mysore, BANGALORE

To

The Secretary to the
Government of His Highness the
Maharaja of Mysore, Revenue Department,
B A N G A L O R E.

Sir,

With reference to Government Order No. L.2570-82 Ml. 1
153-20-9 dated the 4th November 1921, directing that all plans for town extensions in Minor Municipalities should receive the previous approval of the Superintending Engineer, Sanitary Circle, who should see that the building sites are of proper dimensions &c., I have the honor to request the favor of being informed if Major Municipalities are not to be governed by this procedure and what other rule, if any, applies to them.

2. I beg to point out that my proposal was to prescribe a set of rules that should serve to make the extensions really useful, such as would secure their freedom from epidemics and the general well-being of the people who occupy them. That these are the objects none can deny, but there is no way of attaining them except by strictly conforming to the general principles embodied in the draft rules submitted for the approval of Government, in accordance with your letter No. R. 4691 Ml. 203-19-6 dated the 2nd October 1920.

3 I note that Government desire that such matters as the dimensions of sites, width of streets and of censor-

conservancy lanes &c , should generally be regulated according to the circumstances of each locality This will only lead to over-crowding and insanitation If there is a site sufficient to accommodate only 50 houses 100 houses may be built on it Or again, small bits of vacant sites may be utilised for building which may otherwise be reserved as the lung space if there be needs In such and numerous other ways the lay-out may be spoiled, costing large sums of money without corresponding benefit If all buildings either in Major or Minor Municipalities are not controlled, future generations will have to pay the penalty for present neglect A restraining influence in the form of a set of rules will prevent this

4 The Chamarajpet extension in Bangalore City is an instance where an otherwise delightful lay-out, from an Engineering point of view, is marred b haphazard and arbitrary methods in fixing the dimensions of sites and other essential sanitary details In the majority of houses in this extension, lateral ventilation is a thing unknown The houses are contiguous and, in this respect, the extension is no better than the congested parts of the City proper If each individual house is taken into consideration, the majority of them would have to be declared as "unfit for human habitation"

5 As to vesting the Superintending Engineer, Sanitary Circle, with the duty of regulating the extensions in Minor Municipalities only, I beg to differ from Government As an Engineer, he can see to the actual lay out - construction of roads, drainage of the area &c ,But beyond that, he cannot be an authority in the matter of dimensions of sites, suitability of the locality and above all the environment, ventilation and prevention of congestion - which are essentially sanitary details coming within the province of a Sanitarian I may note that with a view to remove the existing misconception in regard to this subject, a resolution was adopted at the last Con-

Conference of Sanitary Commissioners held at Simla that all plans for public buildings and works of a sanitary nature should be subjec ed to the surutiny of a "Medical" Sanitarian, the word "Medical" being advisedly added

6 I could instance numbreus public buildings in the State that have been recently put up which are defective in ventilation and other sanitary requisites The absolute vesting of authority in regard to extensions in the Engineering Department would lead to similar results

7 Both in Major and inor Municipalities therefore, the plans should be referred to the Sanitary Commissioner as well, who should be the authority to decide about the number and dimensions of sites, /suitability of areas in relation to marshes, level of sub soil water, nature of soil &c , streets and conservancy lanes I request that Government may be moved to be pleased to issue instructions accordingly

8 I request also that the set of rules framed by the Special Committee and appended to Official Memorandum No R 10658-65/M1 153-20-(21) dated the 28th March 1921 may be approved by Government and prescribed for adoption in the preparation of plans and estimates for extensions

I have the honor to be,

Sir,

Your most obedient servant

Sanitary Commissioner

Proceedings of the Government of His High Highness the Maharaja of Mysore

Read --

Govt Order No L 2570-82/11 153-20-9 dated the 4th November 1921 directing that all plans for town extension in minor municipalities should receive previous approval of the superintending engineer sanitary circle and that no deviation from the plans approved by the sanitary engineer should be allowed except with the approval of that officer

Letter No 148 dated 8th December 1921 from the Sanitary Commissioner in Mysore urging a reconsideration of the G O read above and suggesting some rules

---

Order of L 2570-82 ml 153-20-11

Dated Bangalore 25-3-1922

The remedies suggested by the Sanitary Commissioner are firstly the prescribing of a set of rules to be adopted by him for the regulation of such matters in all town and minor municipalities and secondly modifying the G O read above so as to make it obligatory for the major and minor municipalities to refer the plans of extensions to the Sanitary Commissioner also to enable him to do

about the number and dimensions of sites suitability of areas in relation to marshes level of sub soil water, nature of soil etc, streets and conservancy lanes

2 After a careful consideration of the matter Govt are of opinion that the rules proposed by the Sanitary Commissioner for the regulation of the layout of sites and construction of houses in -- minor municipalities are too drastic to be enforced irrespective of local conditions and as for the City and Town Municipalities the City Municipal Councils have framed suitable bye-laws and the Town Municipal Councils will be asked to do the same

3 As regards the second proposal of the Sanitary Commissioner about modifying the Govt Order read above Govt are pleased to direct that the Sanitary Commissioner be consulted before the plans are forwarded to the Superintending Engineer Sanitary Circle

R e a d --

Govt Order No L. 2570-82/Fl 153-20-9 dated the 4th November 1921 directing that all plans for town extensions in Minor Municipalities should receive the previous approval of the Superintending Engineer Sanitar Circle and that no deviations from the plans approved by the Sanitary Engineer should be allowed except with the approval of that officer

2 Letter No C 448 dated 5th December 1921 from the Sanitary Commissioner in Mysore urging a reconsideration of the G O read above and suggesting some rules

---

O r d e r No

Dated, 1922

The remedies suggested by the Sanitary Commissioner are firstly the prescribing of a set of rules submitted by him for the regulation of such matters in all town and minor municipalities, and secondly modifying the G O read above so as to make it obligatory for the major and minor municipalities to refer the plans of extensions to the Sanitary Commissioner also to enable him to decide about the number and dimensions of sites,

suitably of areas in relation to marshes, level of sub soil water, nature of soil etc , streets and conservancy lanes

2 After a careful consideration of the matter, Govt are of opinion that the rules proposed by the Sanitary Commissioner for the regulation of the layout of sites and construction of houses in municipalities are too drastic to be enforced ~~in all the said municipalities~~ irrespective of local conditions as for ~~big~~ municipalities, ~~big~~ municipal councils ~~should~~ have framed ~~suitable~~ bye-laws and ~~the~~ municipal councils ~~may~~ be allowed to make bye-laws

3 As regards the second proposal of the Sanitary Commissioner about modifying the Govt Order read above, ~~it has to be observed that the fact that it is prescribed in the said order that all plans for town extensions in minor municipalities should receive the previous approval of the Superintending Engineer, Sanitary Circle, does not prevent the municipalities from consulting the District Sanitary Officers with a view to secure uniformity in procedure in an important matter~~ like the above Govt are pleased to direct that the plans ~~be scrutinised by the District Sanitary Officers or the Sanitary Commissioner~~ before they are forwarded to the Superintending Engineer Sanitary Circle

Para 2 sentence 3 of the Government Order read above will be modified as follows -

Existing	As revised
The Govt therefore consider it desirable to direct, in modification of the above order, that all plans for town extensions in Minor Municipalities should receive the previous approval of the Superintending Engineer, Sanitary Circle, who should see that the building sites are of proper -- dimensions, that houses and sites are properly laid out and that the drainage of the areas receives due attention	The Govt therefore consider it desirable to direct, in modification of the above order that all plans for town extensions in Minor Municipalities should, after -- necessary scrutiny by the District Sanitary Officer or Sanitary Boards receive the previous approval of the Superintending Engineer, Sanitary Circle, who should see that the building sites are properly laid out and that the drainage of the area receivesdue attention
